

SOURCE:
EXISTING SITE INFORMATION OBTAINED FROM A PLAN PROVIDED BY THE CITY OF WATERVILLE.

NOTES:
THIS PLAN HAS BEEN PREPARED FOR THE CITY OF WATERVILLE WITH THE INTENT THAT THE CITY'S MAINTENANCE DEPARTMENT WILL COMPLETE THE CONSTRUCTION OF THE PROPOSED SNOW DUMP FACILITY. THE CITY WILL BE REFERENCED HEREIN AS THE CONTRACTOR.

SEQUENCE OF WORK:
1A. Install standard silt fence downstream of existing gravel haul road and at other locations as shown on the plans.
1B. Install culvert at existing ditchline. Do not disturb existing material. Use imported gravel.
2A. Clear trees, but do not pull stumps.
2B. Complete permanent erosion control basin and storm water connection immediately after temporary erosion control measures are in place.
1. Pull and grind stumps in berm and basin.
2. Use stump grindings at downslope edge of berm. Permanent feature to be a minimum of 18" high.
3. Remove stump and install new drain line and catchbasin.
4. Construct berm and basin.
3A. Pull stumps and regrade as stumps are removed.
3B. Remove topsoil from City Snow Dump access area (top of hill in field) and relocate fill to lower elevations and access road.
3C. Backfill access area with gravel (minimum 6") every day to cover exposed native soil.
3D. Install remaining 18" of gravel when convenient to proper fine grade elevation.
3E. Pave access area.
4A. Working from bottom of hill upward, grade and cover with stump grindings daily.
5A. Stockpile stumps or grindings as necessary if cut and cover operations cannot match speed of stump grinding operation.

LEGEND:

- 5/8" CAPPED IRON ROD SET
- EXISTING SANITARY SEWER MANHOLE
- EXISTING STORM DRAIN CATCH BASIN
- EXISTING UTILITY POLE
- APPROXIMATE PROPERTY LINE
- EXISTING OVERHEAD UTILITIES
- EXISTING SANITARY SEWER LINE
- EXISTING 2 FOOT CONTOUR
- EXISTING 10 FOOT CONTOUR
- EXISTING TREELINE
- EDGE OF GRAVEL
- EXISTING EDGE OF PAVEMENT
- EXISTING STORM DRAIN LINE
- APPROXIMATE HIGHWATER MARK
- EXISTING FENCE
- PROPOSED 2 FOOT CONTOUR
- PROPOSED 10 FOOT CONTOUR
- LIMITS OF PROPOSED PAVEMENT
- LIMITS OF PROPOSED GRAVEL
- LIMITS OF PROPOSED EROSION CONTROL BLANKET
- PROPOSED TIE LINE
- PROPOSED STORM DRAIN
- PROPOSED STORM WATER CATCH BASIN
- PROPOSED SILT FENCE
- PROPOSED STORMWATER FLOW PATH
- PROPOSED ELEVATION
